

Concluding plenum

European BIBFRAME Workshop 2017

German National Library – 26+27 September 2017

Leif Andresen

Royal Danish Library

Concluding plenum

- Plenum discussion:
- **Continuous cooperation about BIBFRAME in Europe.** Do we need some formal / informal organisation? (cf. EURIG, European RDA Interest Group; LIBER Task Group on MARC Harmonization; etc.)
- **International cooperation and structured dialogue with Library of Congress**

To early to long term decision

- This year: no executive committee
- The 2017 workshop organizer group to collect all the notes and make some kind of workshop report to be published at the workshop web site
- If you publish reports, articles etc. after this workshop, please send a link to Reinhold: r.heuvelmann@dnb.de
- A need a 2018 workshop

Next step

- European BIBFRAME Workshop 2018
- Place: Florence by invitation of Casalini Libri s.p.a.
- Organizer Group 2018 Workshop
- Duties:
 - Prepare European BIBFRAME Workshop 2018
 - Consider other events, e.g. training
 - Consider other initiatives
 - Be in contact with Library of Congress and LD4L/LD4P
 - Maintain a mailing list "workshop specific"

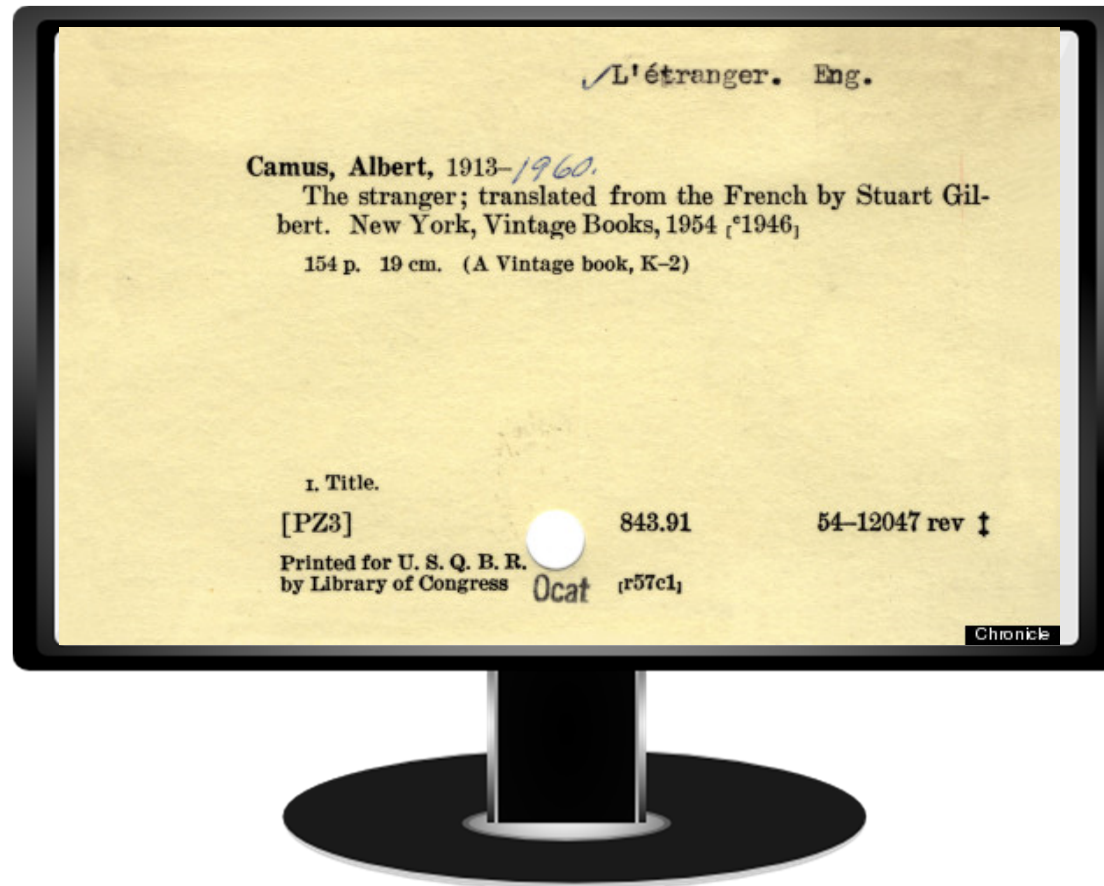

Other initiatives and Events

- Bibframe.org reuse in dialogue with Library of Congress: Build a wiki with structured documentation, examples, training material etc.
- Develop BIBFRAME requirements for ILS tender
- Satellite event at SWIB 2017 in December
- Discussion with RDA / EURIG

Organizer Group 2018 Workshop

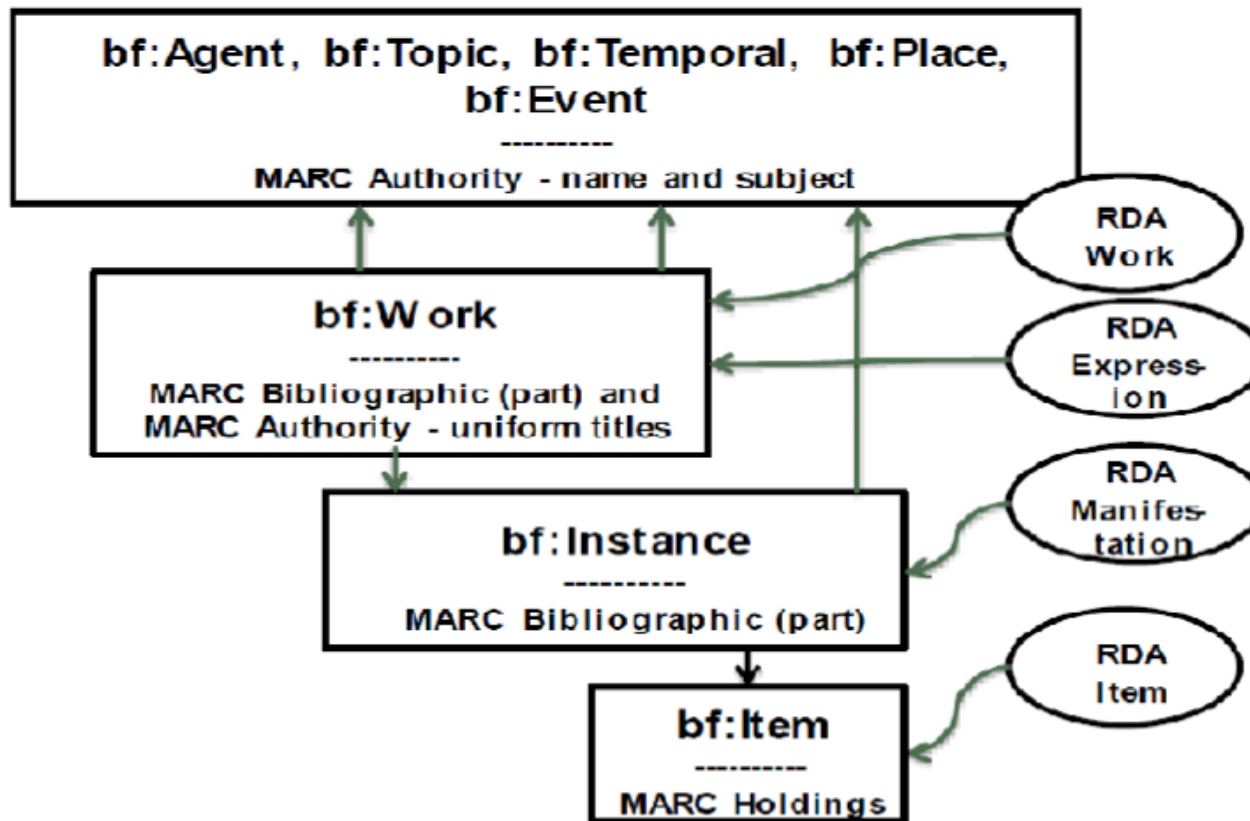

- Leif Andresen, Royal Danish Library
- Reinhold Heuvelmann, German National Library
- Osma Suominen, National Library of Finland
- Michele Casalini, Casalini Libri s.p.a.
- Clément Oury, ISSN International Centre

We have to move from:

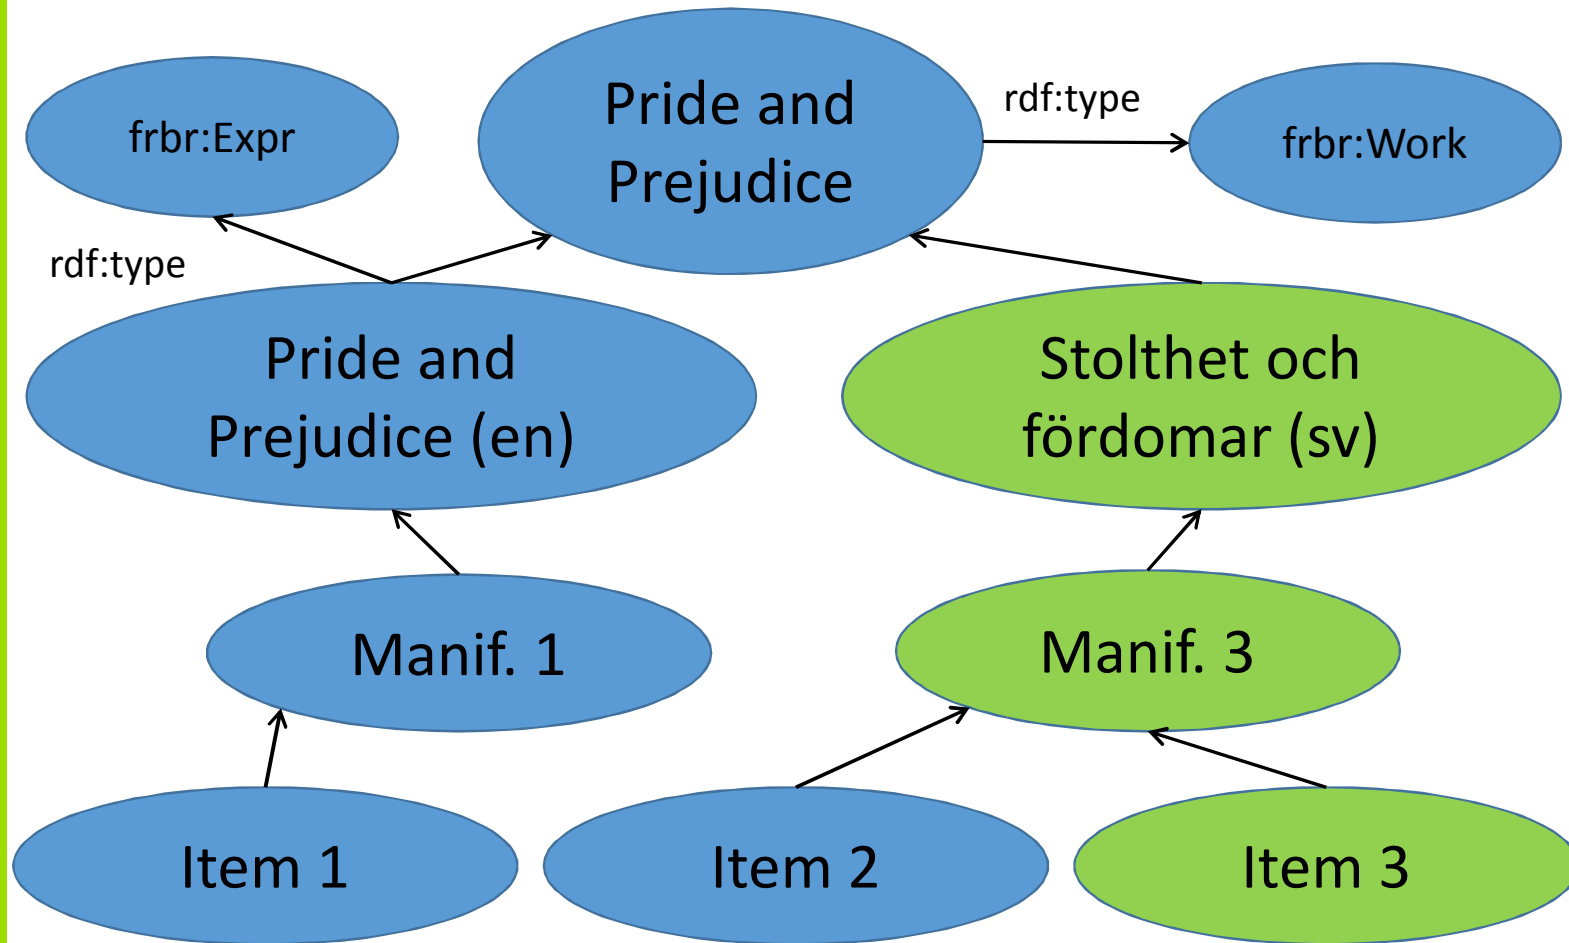

Philip Schreur/Stanford University

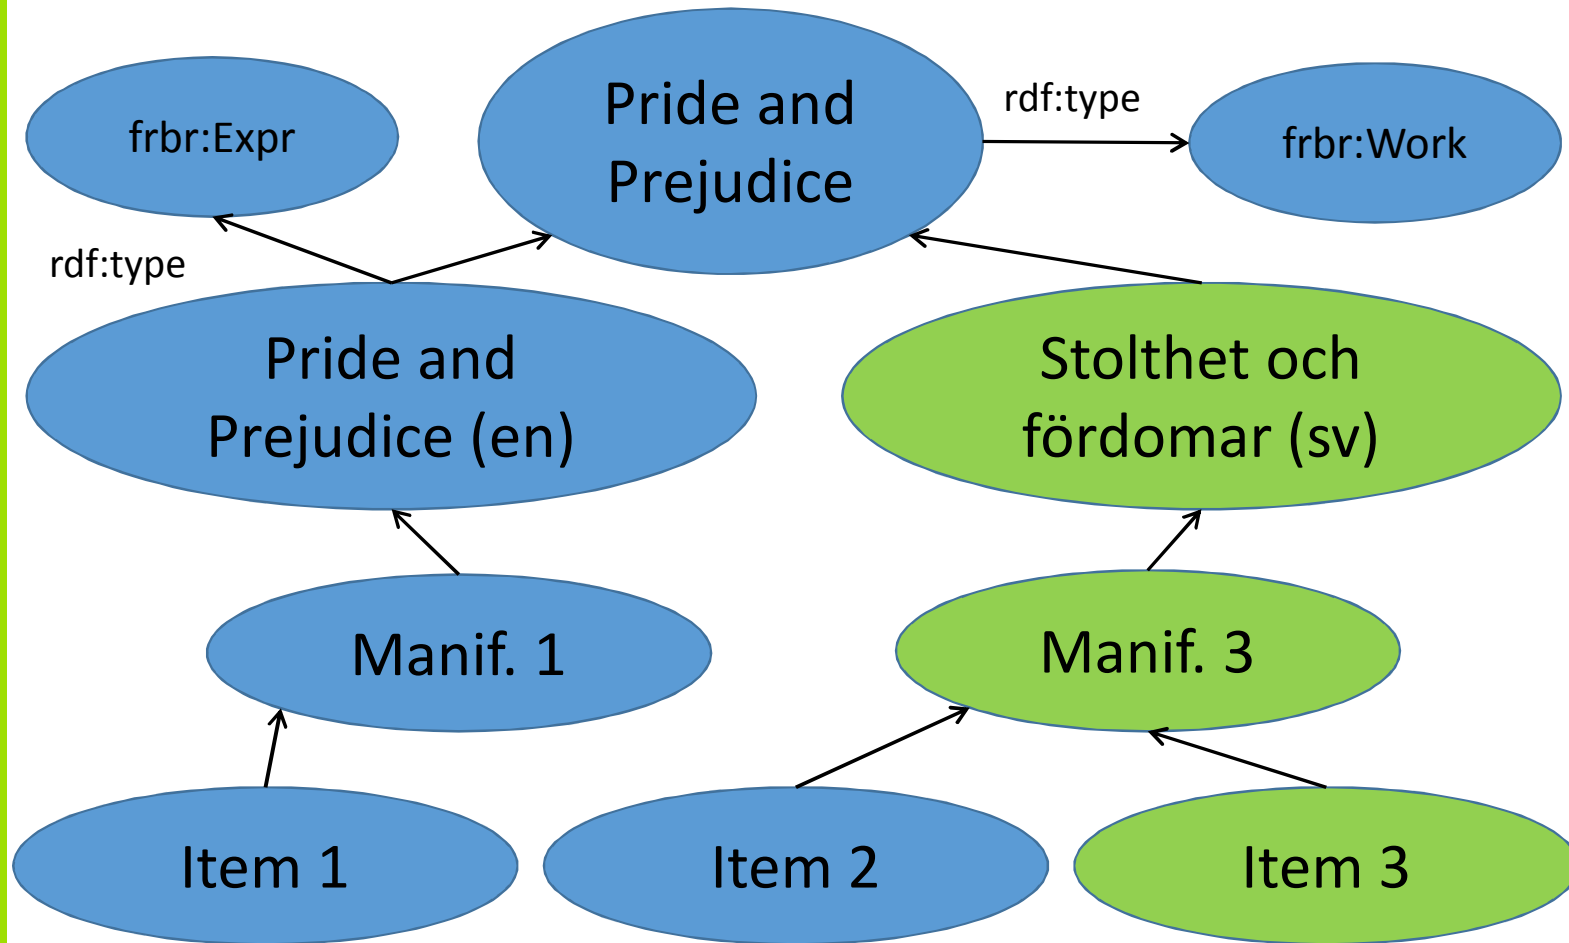

To linked data

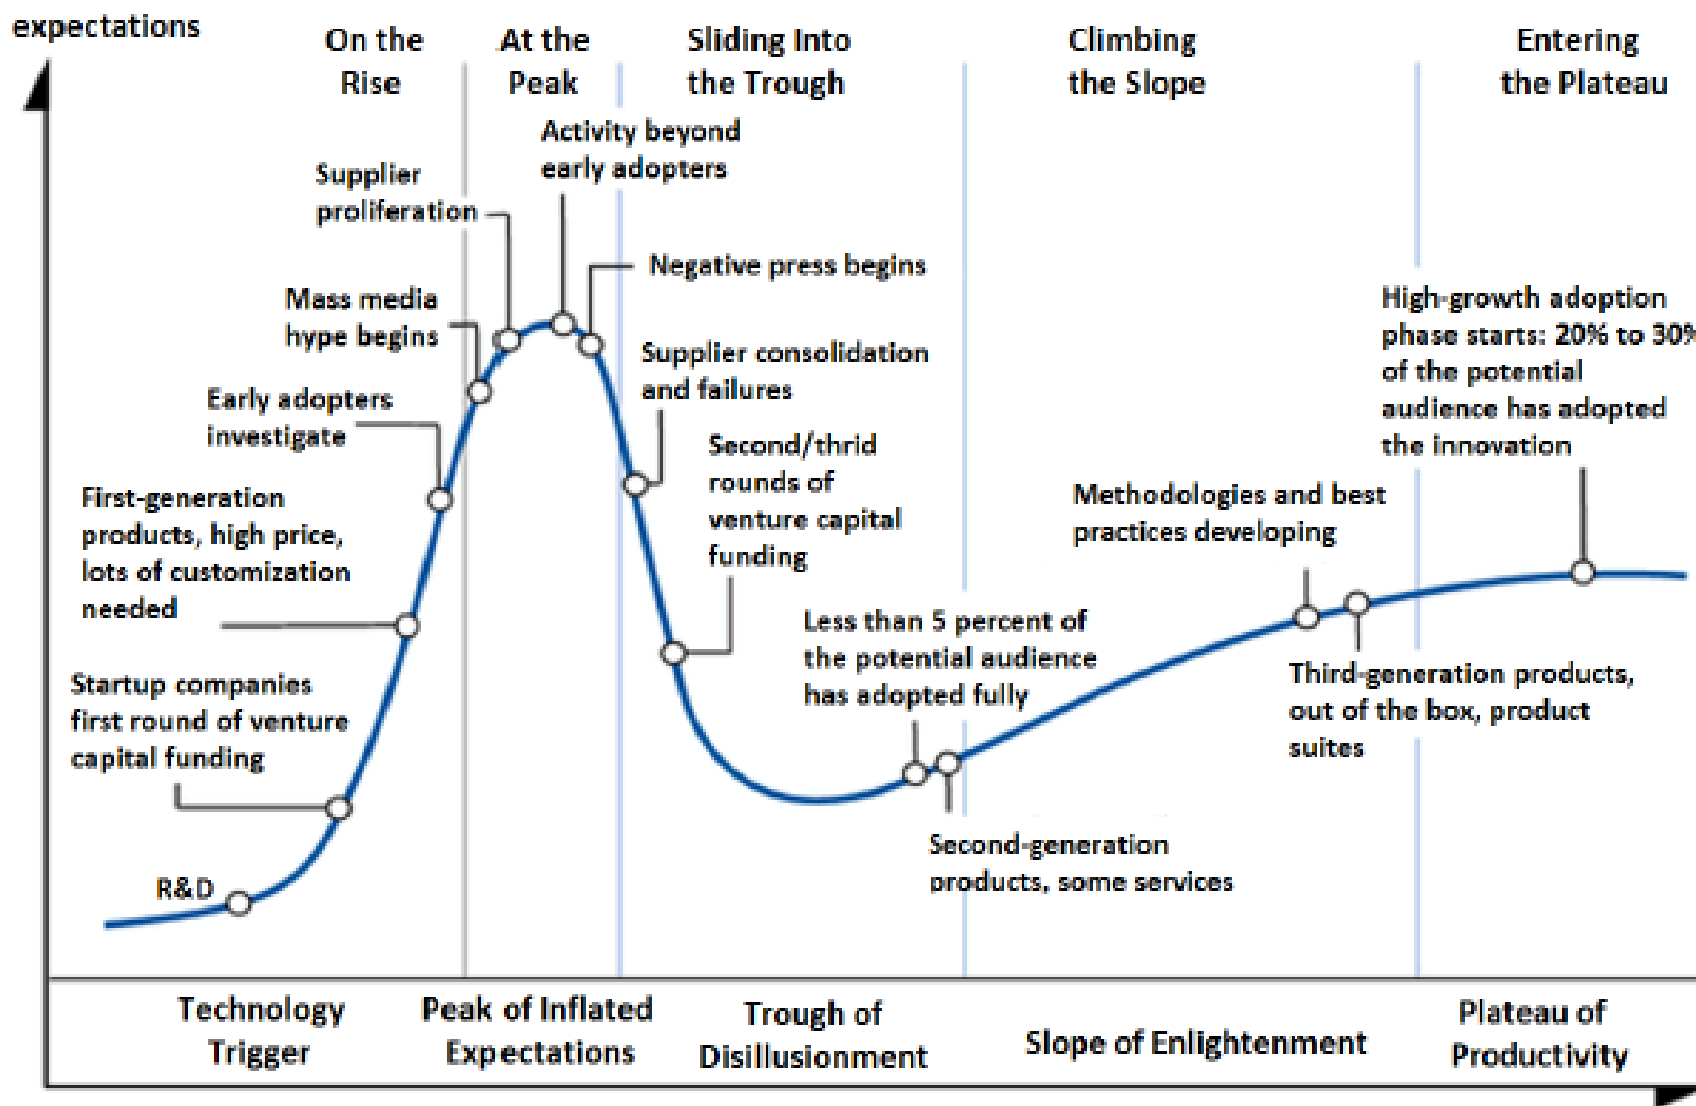

Focus from Manifestion to Work

From copy to caching

P's

- P for practice
- P for practical
- P for production

- P for permanent..... ?????

P's

- P for practice
- P for practical
- P for production

- P for planning the future

From introduction

- *Over the last years, there have been several Linked Open Data projects in libraries.*
- *The library community needs one international standard for interchange of bibliographic metadata based on modern technology.*
- *BIBFRAME shall - according to the intentions of the Library of Congress - replace MARC.*
- *BIBFRAME has the potential to become more global than MARC21.*
- **The workshop underlined this!**

Conclusion

- European BIBFRAME Workshop 2018
- Sharing / corporation during the year
- Use the mailing list to call for reviewing proposals etc.
- FINAL: Thanks to German National Library
- Save trip home to all
